## *Never Badger a Badger!*

*a poem by Spiyra Zye*

*Never badger a badger, It isn't considered quite  
wise, If you badger a badger you might get a  
nasty surprise, They have very sharp teeth and  
very long claws, If you win in a fight against a  
badger you really deserve some applause!*

*We can put up poetry

# More about PET MICE

## Breeding

Mice can breed when they are few weeks old, all though it isn't good for them or their litter, so you should definitely wait until they are much older. They can breed up to 3 times in a lifetime, all though that is a little much for some mice. Mice should not breed after they are 8 months old. Giving birth is very difficult for mice, and they can die in the process.

While a mouse is pregnant it can be a lot of different sizes. It can be almost as small as it usually is or it can look as if it swallowed something the size as a golf ball.

Usually it's not good to give your mice too much protein or fat in their diet, but protein and fat can be good for pregnant mice.

Having 2 pregnant mice in 1 cage can be good because they can help each other out, but also bad things can happen; like, when the babies are born 1 mother might try to adopt both litters and not have enough milk for both of them.

Do not keep the male mice in the same cage as the female mice while the females are pregnant.

The females will need a few weeks rest after giving birth.

## A book review of *Flora Segunda* by Ella Plansky

*Flora Segunda* by Ysabeau S. Wilce

Published 2007

*This book is fantasy.*

*Flora Fyrdraaca's family, along with their house, was once grand but now has fallen upon hard times. When Flora's mother banished the family's magical butler long ago the house, and the family started to fall apart. The Fyrdraaca family have been in the military for generations and Flora's mother and Flora's older sister are always far away working for the military, leaving Flora at home with Poppy (Flora's father) who retired from the military after being captured in a war, and now stays confined in his room drinking and occasionally coming downstairs to get food.*

## THE LAST DRAGON EGG CONTINUED FROM ISSUE 4

WE, THE DRAGON MONKS TOOK IT AS OUR DUTY TO LEARN ALL WE COULD ABOUT DRAGONS, LETTING THEM LIVE ON THRU US. I KNOW IT SOUNDS GREAT, BUT IT'S JUST MOSTLY BORING CLASSES AND LECTURES. I KNEW MORE ABOUT DRAGONS THAN THE REST OF THE BOYS IN MY CLASS COMBINED. I HAD READ GAUNT'S BOOK A DOZEN TIMES, BUT WE HAD ONE OF OUR DIFFERENT-TYPES-OF-DRAGONS TEST TOMORROW AND I HAD TO BRUSH UP ON MY FACTS ABOUT THE TRI-HORNED DRAGON. I LOOKED BACK TOWARDS THE DRAGON MONASTERY. THE MONKS HAD TOLD ME THAT MY PARENTS HAD VANISHED ON AN EXPEDITION TO THE SUMMIT OF MOUNT ESHCABA FOLLOWING A RUMOR OF A TRI-

HORNED DRAGON. I HAD BEEN ONLY TWO AT THE TIME. MY PARENTS HAD CHOSEN TO LEAVE ME AT THE MONASTERY WITH MY NURSE, ANANARA PICCA. I USED TO CALL HER ANANA.
